

# ADRIANO DÍAZ BENÍTEZ

## BACKEND DEVELOPER

Backend developer specialized in **Java** and **Spring Boot**. I have knowledge in **Python** and **C#** (.Net) and experience in functional test automation projects with **Selenium** (Java and Python). Over 30 repositories on my **GitHub** where you can see my personal projects: [www.github.com/PublicoElio](https://www.github.com/PublicoElio). Passionate about technology and continuous learning, I feel comfortable working in international environments (**C1 English Certification by Cambridge**).

## TECHNICAL SKILLS

- [Java](#)
- [Spring Boot](#)
- [SQL - PL/SQL](#)
- Android development (Java)
- HTML - CSS
- [Linux](#) (bash scripting)
- [Git](#)
- JUnit
- [Selenium](#)
- [QA](#) and test automation
- [Atlassian Jira](#)
- [Python](#)
- C#
- [JavaScript](#)

## LANGUAGES

[Advanced Certificate of English \(Cambridge\) C1](#)

## CERTIFICATIONS

[Cisco CCNA: Introduction to Networks](#)  
[Cisco DevNet Associate](#)  
[SQL Intermediate \(Sololearn\)](#)  
[NDG Linux Essentials](#)  
[Optimizing test automation with centralized test data \(Tricentis\)](#)  
[Software Testing and Automation Specialization](#)

## SPECIALIZED TRAINING IN JAVA

[Functional Programming in Java](#)  
[18: API Stream](#)  
[Java 18: Clean Code](#)  
[Java 18: Concurrency](#)  
[Java for QA](#)

## WORK EXPERIENCE

### Functional Tester QA - Sogeti

March 2024 - June 2024

Automated testing programming with Selenium in **Java/Cucumber** and **Python/Behave**. Functional, accessibility, performance, integration, and end-to-end testing. QA management with Jira and Xray. Project management with **Scrum (Professional Scrum Master Certificate)**.

### Programming Instructor - Aspasia - SEPE - Euroformac

November 2019 - March 2024

Courses Taught:

- Analysis and Programming in **Java**
- Mobile Application Development on **Android** with Java
- **Java Application Development:** Web Components and **Database Applications (Hibernate - JSP and JPA) - Spring Boot**.
- Software Project Management and Development Methodology with **Scrum**
- Internet Security with **Linux**
- **Web Development** for E-commerce

### Backend developer - IntegraQuatro

September 2016 - December 2017

Digitalization Project for SMEs: Development of Cross-Platform Applications in **Java**. Cloud Deployment with **AWS**. My main focus was on **backend programming**, including database creation and the use of **Spring Boot**. Testing with **JUnit**.

**Front-end Programming:** Form design, landing page layout with CSS. Functional web page testing. UX/UI development.

## EDUCATION

### 2024 Software Testing and Automation Specialization

Online specialization course that includes: Introduction to **Software Testing**, **Black-box and White-box Testing**, **Introduction to Automated Analysis**, and **Web and Mobile Testing with Selenium**. Technologies used: **JUnit**, **Mockito**, **Cucumber**, **Selenium**, **Behave** and **Appium**.

### 2023 Development of Cross-Platform Applications

- Management and design of **databases**
- Configuration of development environments (**NetBeans**, **Eclipse**, **IntelliJ**, **Visual Studio Code**, **Visual Studio**, **Android Studio**, **PyCharm**)
- Development of cross-platform applications with database access
- Languages used: **Java**, **Python**, **C#**, and **JavaScript**; **Spring Boot**.
- Development of graphical user interfaces. **UX/UI design**.

### 2022 School 42 Málaga (Fundación telefónica)

**Bootcamp.** Fundamentals of software development with **C** language and version control with **Git**. Installation and configuration of computer systems with **Linux**. Bash scripting.

2013 Master's in Corporate Communication Management

2009 Bachelor's in Journalism
